EXPLORE YOUR FUTURE

MAKING THE MOST OF EXPLORE YOUR FUTURE

STOP AT EVERY BOOTH

Even if it doesn't immediately appeal to you, stop and ask questions. You never know what possibilities you may not have thought of, or what you could learn from other's stories that could apply to your own journey.

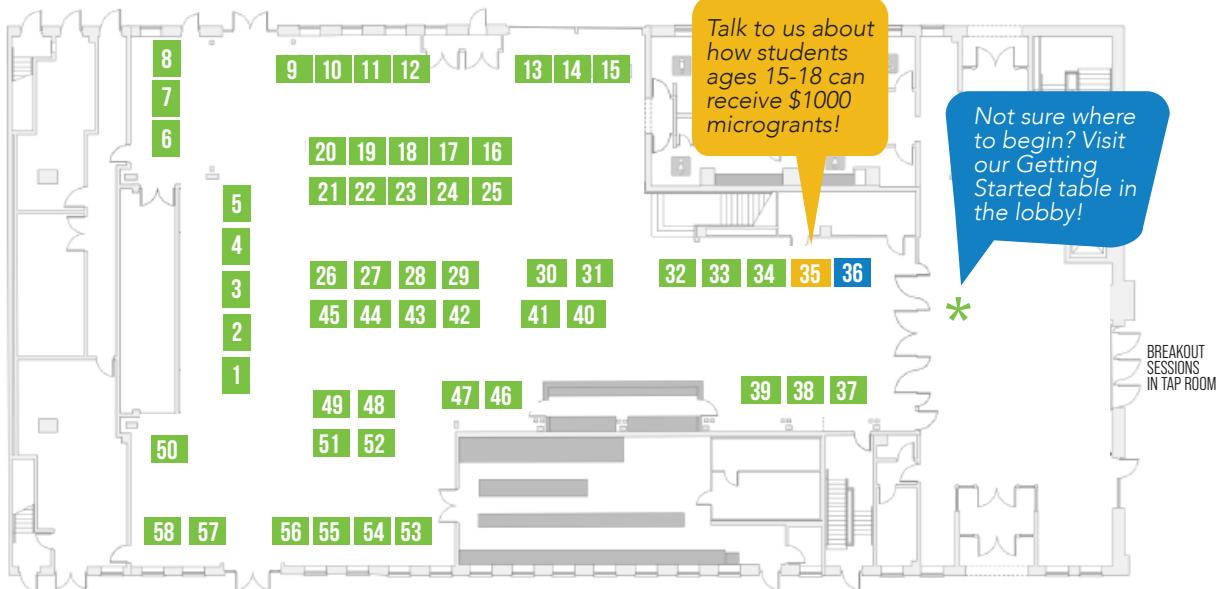

ASK LOTS OF QUESTIONS

- What different career are represented at this workplace?
- I'm interested in ___, would there be any roles related to that here?
- What experience would I need to work here?
- What things should I consider when picking ___ as a career?
- What advice would you give someone who is interested in this field?
- What steps did you take to get where you are?
- What opportunities outside of school helped prepare you?
- What soft skills do you look for most in employees?

KEEP THE CONVERSATION GOING

Reflect on this event; what stood out to you? Did you learn anything new? Do you feel more or less confident about your future? Continue to ask questions and learn about the options out there. But remember that career exploration is a journey, you don't need to have it all figured out right now, and you're allowed to change your mind down the road.
